

KURA VARSHA

Noida, Uttar Pradesh | +91 9818890886 | varshakura1@gmail.com | [Kuravarsha](#)

Driven and enthusiastic fourth-year B.Tech Computer Science student at SRM Institute of Science and Technology with a strong academic record (**CGPA: 9.85**). Passionate about software development, problem-solving, and building impactful, user-focused technology solutions. Strong foundation in computer science fundamentals, including data structures, algorithms, and object-oriented programming.

EDUCATION

BTech – Computer Science and Engineering | SRM Institute of Science and Technology, Kattankulathur, Chennai
Currently pursuing – (2023-2027)

- CGPA - 9.85

Class 12 (CBSE) | St. Thomas School, Indirapuram, Uttar Pradesh
(2022-2023)

- Science – 87.6
- School Topper in Computer Science Subject – 99/100

Class 10 (CBSE) | St. Thomas School, Indirapuram, Uttar Pradesh
(2020-2021)

- Percentage-95
-

EXPERIENCE

PROJECT INTERN- ORACLE FINANCIAL SOFTWARE SERVICES

Oracle Banking Retail Lending Services Team | Bengaluru | July 2026 – September 2026

- Completed development enhancement tasks for an enterprise retail-banking platform, extending account onboarding, payment, amendment, and disbursement microservices with validated data persistence while preserving existing behaviour.
- Implemented end-to-end database and API changes across schemas, JPA entities, repositories, mappings, and service contracts; strengthened data integrity and migration traceability through identifier propagation, validation rules, and database scripts.
- Improved distributed-system reliability by enhancing Kafka event processing with timestamp and exception handling, validating REST-based cache integrations, and documenting technical changes for review and future integration.

INTERN - PARIVARTAN SANDESH FOUNDATION

June 2025 – July 2025

- Volunteered to teach core academic subjects like Math, English, and IT to underprivileged school children, helping improve their foundational skills.
- Organized and conducted engaging workshops and activities such as art, storytelling, and life skills sessions to support holistic child development.

WEB-DEVELOPMENT INTERN – PRATINIK INFOTECH

May 2025 – July 2025

- Completed a web development internship focused on developing full-stack web application eg. (CMS, Event Management, Portfolio) using React, Node.js, HTML, CSS and JavaScript, featuring responsive UIs, secure user authentication, and robust backend database integration.

PYTHON PROGRAMMING INTERN - MOTIONCUT

August 2024 – September 2024

- Successfully completed an internship in Python Programming, gaining hands-on experience in problem-solving and built multiple mini projects including a Hangman Game, Expense Tracker, Word Counter, and Planet Quiz Game.

AICTE -EDUSKILLS AI-ML VIRTUAL INTERNSHIP

April 2025 – June 2025

- Successfully completed AI-ML Virtual Internship 10 weeks under AICTE Google for developers
-

SKILLS

- Languages: Python, Java, JavaScript, HTML5, CSS3, C/C++
 - Backend & APIs: Spring Boot, REST APIs, Microservices, JPA, Fast API, Node.js
 - Databases & Persistence: Oracle Database, MySQL, SQLite
 - Web Development: React.js, Node.js
 - Libraries & Frameworks: NumPy, Pandas, OpenCV, TensorFlow, Matplotlib
 - Messaging & Distributed Systems: Apache Kafka, Oracle Coherence, Distributed Caching
 - Game & Design Tools: Unity, Blender
 - Tools & Platforms: Git, GitHub, VS Code, Postman, Blynk IoT, RESTful APIs, Arduino
-

PROJECTS

- **FARMLAND | Python, MySql** **January 2025 – July 2025**
 - FarmLand is a complete farming management web application built with Streamlit and MySQL. It provides an intuitive interface for farmers, users, and admins to manage agricultural operations, from crop registration to marketplace interactions.
- **INDIVIDUAL PERSONALIZATION OF CHATBOTS | Accepted at ICIET 2026** **August 2025**
 - Design, Implement and evaluate a psychologically adaptive chatbot system that personalizes interactions based on the user's cognitive and emotional traits.
- **EMOTIONINSIGHTPRO | Python, OpenCV, TensorFlow** **May 2025**
 - EmotionInsightPro is a real-time facial emotion recognition system using Python, OpenCV, TensorFlow. It detects human emotions through a webcam.
- **DIABETES PREDICTION SYSTEM | Python, scikit-learn, Streamlit** **May 2025**

- This is a machine learning-based web application that predicts the likelihood of a person having diabetes based on medical parameters. It uses the Pima Indians Diabetes Dataset and is built using Python, scikit-learn, and Streamlit.
- **SMART WATER IRRIGATION SYSTEM | Sensors, Blynk App, Arduino IDE** **November 2024**
Smart Water Irrigation System is a smart IoT-based irrigation automation solution built using ESP8266, a soil moisture sensor, a relay-controlled water pump and integrated with Blynk app. It monitors soil moisture levels in real time and activates the pump automatically when moisture drops
- **POSTURE GUARD | Arduino, API, Unity 3D.** **April 2025**
Developed an innovative real-time physiotherapy monitoring system using Arduino (ESP8266, MPU9255), cloud connectivity (ThinkV)API, and Unity 3D. Enabled accurate home-based rehab through live motion tracking, 3D avatar visualization, and remote therapist feedback, improving patient engagement, exercise precision, and recovery outcomes.
- **INDIAN MEDICINAL PLANTS IDENTIFICATION AND INFORMATION SYSTEM | Python, YOLOv11, Streamlit, SQLite**
Developed a YOLOv11-driven web application achieving 94.89% classification accuracy for 80 medicinal plants, integrated with a dual SQLite database delivering real-time retrieval of 420+ phytochemical records.
- **EDUCRACK | React, FastAPI, Python, HTML, CSS, JavaScript, MYSQL, AI** **July 2025**
Developed a full-stack AI-powered quiz platform using React, FastAPI, and MySQL, featuring user authentication, real-time scoring, and an integrated chatbot for instant answer analysis and conceptual feedback.
- **NEXUSRAG KNOWLEDGE BASE | Next.js, FastAPI, Pinecone** **May 2026**
Built a RAG knowledge base for querying technical PDFs with cited LLM responses, featuring optimized document ingestion pipelines and a premium Next.js frontend with persistent chat memory.

ACHIEVEMENTS

- **Departmental Merit Scholarship (₹87,500):** Awarded a performance-based scholarship recognizing top academic performers within the Department of Computing Technologies.
-

CERTIFICATIONS

- C PROGRAMMING LANGUAGE- UDEMY
- C++ PROGRAMMING LANGUAGE – UDEMY
- **PROGRAMMING IN JAVA - NPTEL SWAYAM (IIT KGP)**
- UNITY ESSENTIAL PATHWAYS - UNITY TECHNOLOGIES
- DATA STRUCTURES AND ALGORITHMS IN C++ - UDEMY
- CYBERSECURITY FOR BEGINNERS - TATA STRIVE
- **DATABASE SYSTEMS - NPTEL SWAYAM (IIT M)**
- DIGITAL TWIN TECHNOLOGY PROJECT EXPO
- IDEATHON 5.0 HACKATHON
- TEACHBOT- GENAI WORKSHOP

- INTRODUCTION TO MACHINE LEARNING – NPTEL SWAYAM (IIT KGP)
 - DEVELOP GENERATIVE AI APPLICATIONS – IBM (COURSERA)
 - ORACLE CLOUD INFRASTRUCTURE FOUNDATIONS – ORACLE (COURSERA)
 - AI FOR EVERYONE – DEEPLARNING.AI (COURSERA)
